ROTARY TENNIS AND PICKLEBALL CLASSIC AT HARBOUR RIDGE

APRIL 22-24, 2022

Become a Sponsor!!

SERVE TO CHANGE LIVES

Each year, the Rotary Club of Stuart-Sunrise awards between \$12,000 and \$20,000 in college scholarships for students graduating from Martin County's high schools. Since our inception in 1985, we have awarded almost \$220,000 in college scholarships.

Your donation will help raise funds needed to make dreams come true for these students, some of whom are the first in their families to attend college. Our fundraiser will be held at the prestigious Harbour Ridge Yacht & Country Club Lakeside Tennis and Pickleball Center, a PBI Tennis Center, on April 22-24, 2022.

Here's one story of how our scholarship has changed a life - we hope you will join us in changing others through your donation of an item for our Scholarship Fundraising efforts!

My first year at the Culinary Institute of America (CIA) was an experience like no other. With a new environment came many challenges. It was a new chapter in my life, and I was excited, but nervous. Along the way, I learned a tremendous amount of knowledge and gained life long friends and experiences. It was really exciting because it gave me a chance to explore the local area and give back to the community by keeping the park clean. I also took part in the "Peanut Butter and Jelly for a Good Cause". In only a few hours, we made thousands of PB&Js for local food banks. It is always a great feeling to give to those in need. Also, I joined "Mise en Place", a leadership program where I heard from our chefs and faculty about the schools core value; excellence, leadership, professionalism, ethics, and respect for diversity.

My favorite classes were Baking Ingredients & Equipment Technique, BIET for short and Menus & Management profit. In BIET, I learned about different types of spices, herbs, dairy products, flours, fruits, and much more. My menu class was also very interesting because I learned the latest trends and how to design and cost out a menu. With all I learned, I created a restaurant concept of my own. I had to cost out my whole menu, pick a location, and create a profit and loss statement.

I knew it was to help better myself. As the weeks went by, my classes got harder and harder. At the end of the semester, it was time for my practical. It was a stressful two days. I had to demonstrate what I had learned throughout the course by creating two final products: a cake and an apple strip.

Juana Pascual, Culinary Institute of America
